EXCITEMENT

Caused at Mansfield by an Akron Man.

Escaped From Quarantine, But Didn't Come Here.

Considerable excitement was stirred up at Mansfield, Saturday, by an Akron man. Mr. R. B. Moore, a traveling man of this city, was taken ill with smallpox Friday night and was placed under quarantine. Early Saturday morning he escaped and is still at large. Edward Lembricht, who was on guard at the house, stated that Moore must have escaped before he went on duty about 1 o'clock.

Moore has not been seen in this city, though, since he left Mansfield. The directory shows that he boards on South Main st., but the keeper of the boarding house said today that he had not been there for several weeks.

MOTHER DEAD.

Sad News Reported From England by W. H. Collins.

Word has been received in Akron from Court Stenographer W. H. Collins, now at Hereford, Eng., that his mother died there July 3. She had been ill for several months, and the trip of Mr. W. H. Collins and wife was made so they could be at her bedside during her last days. They arrived in England about a week before her death. It is the intention of Mr. and Mrs. Collins to sail from England Aug. 10. On their way home they will stop for a week in New York to visit Mr. Collins' brother.

TO DISBAND.

Apollo Quartette Announces Farewell Concert.

(Special Correspondence.)
Cuyahoga Falls, July 14.—The members of the Apollo quartette announce a farewell concert to be given in Apollo hall, Wednesday evening. Mr. Charles Wattleworth, a member of the organization, expects to leave in a short time for his old home in England. The organization will probably be broken up.

CAMPMEETING.

Salvation Army Workers at Beulah Park.

The annual camp meeting and summer school of the Salvation Army of Ohio are now in session at Beulah park, Cleveland. They will continue until July 21. A number of Army workers from Akron, including Captain Mary Frey, are attending the sessions. Adjutant and Mrs. Jaeger will spend Thursday at the camp meeting.

If you would be pungent, be brief; for it is with words as with sunbeams, the more they are condensed the deeper they burn.—Southey.

INDIAN

Minister Working In Akron.

Gives Time to Church Work In Winter.

Believes Indians Descended From Esau.

Rev. John Iomah, a Mohawk Indian of the purest blood, is a temporary resident of Akron, being an employee of the Goodrich Rubber Co. Mr. Iomah was born in Virginia and received his education in the Hampton Institute, the same institution that gave to the world the genius of Booker T. Washington.

Mr. Iomah married a squaw of the Powhatans, the tribe made famous by the Princess Pocahontas. Near the town of Hampton, Va., is a little Baptist church whose members are Indians, and here Mr. Iomah ministers, traveling besides, through Carolina and Georgia, where many Mohawks and Cherokees reside. Though not yet ordained, Mr. Iomah has become so well known through his evangelistic work and fine Christian character that he is recognized by the ministry of his church everywhere and is always given the title of Reverend. Mr. Iomah speaks 15 of the Indian dialects. The Indians are very poor and cannot do much toward supporting a minister. For this reason, Rev. Iomah spends the winter months in evangelistic work and works in the shops during the summer to secure money upon which to live the balance of the year.

CECIL RHODES' WILL

Provides For Proper Food For Students.

Cecil Rhodes in his late will left a bequest of \$50,000 for the improvement of the high table for resident fellows and tutors at Oriel college, Oxford.

"I am rejoiced to find that one millionaire has at last given some thought to the question of dietetics in educational institutions," says Elizabeth Cady Stanton in the New York Journal.

"One of the crying evils in our schools, colleges and universities is the bad system employed in feeding growing boys and girls.

Students, above all other classes, need plenty of good, well-cooked food and a happy state of mind in anticipation of their various meals.

Dyspepsia is one of the common diseases among the literary classes, and the foundation for this prevalent ailment is laid in our colleges and seminaries. Of what avail is a knowledge of art, science, philosophy and government when health is seriously undermined?"

All this comes from ignorance as to the kind of food element the body must have to supply the daily loss from brain work. Bacon, meat, potatoes, white bread and coffee actually will not keep a hard brain worker well. A food expert perfected a perfect food for brain workers.

Not only in the schools but in the home should the food be looked after. The necessity of selecting food to supply proper nutrition to replace the daily waste of tissue of brain and nerves is of the greatest importance.

Grape-Nuts is the ideal food for young and old who use the brain actively; the distaste of the grains being perfectly developed and the starch transformed into grape sugar in the most perfect manner.

In this condition, Grape-Nuts is ready to be quickly absorbed into the blood and tissue without taxing the intestinal digestive machinery. The phosphate of potash found in the cereals is retained, and this with albumen, supplies the elements required to build the gray matter in brain and nerve centers.

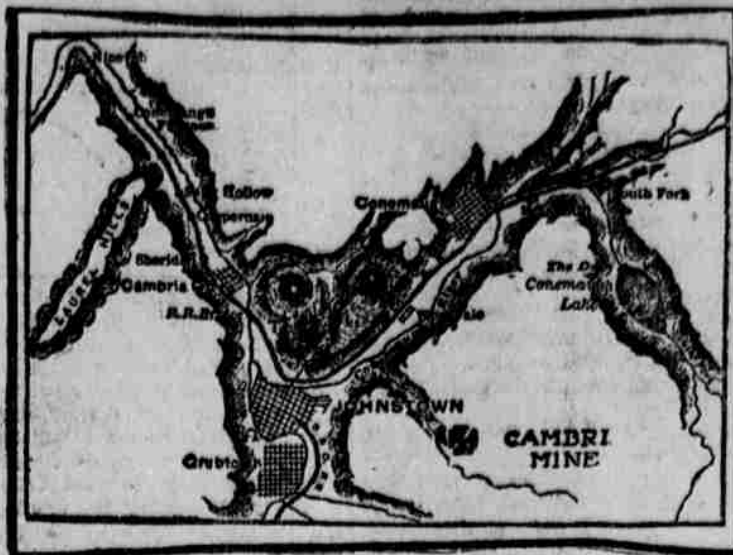

Dr. Max Grossman, of New York city, recently called the attention of the Board of Education to the fact that "pupils of the defective class are apt to be weak physically. Temporary aberrations are often mistaken for real defects, when they are only symptoms of physical growth, of indigestion or other maladies. Indigestion has been responsible for more than one falsehood, and its cure has often been followed by a return to truthfulness."

In its predigested form, the daily use of Grape-Nuts for the cereal part of the meal, aids digestion, nourishes the body, tones up the nervous system and quickens the mental faculties.

Coffee should also be banished, for it unnaturally stimulates the brain and nerves so that proper nutrition is interfered with and they cannot get sufficient rest to take the food needed for the work they must do from day to day. For the morning beverage, Postum Food Coffee should be used in place of coffee.

Let the daily breakfast, particularly at this time of the year, consist of Grape-Nuts and cream, a little fruit, a cup of Postum Food Coffee, some whole wheat bread and possibly one or two soft-boiled eggs. It is impossible to make one believe what a wonderful change in health, strength, comfort and ability comes in ten days after quitting wrong food and living on scientifically selected food.

Pictures of Scenes Where Mine Disaster Occurred.

The picture on the left shows the situation of the mine at Johnstown, Pa., where so many miners lost their lives. The picture on the right is from a photograph of the bridge on Mill Creek, near the entrance to the mine where the explosion occurred.

ASHLAND

Will Accept the Proposition

Made by Faultless Rubber Co.

Deal Will be Closed Within a Few Days.

Indications are that the proposition made by Mr. H. B. Camp whereby Ashland will secure a branch plant of the Faultless Rubber Co., of this city, will be accepted. Mr. T. W. Miller, treasurer and manager of the company, stated Monday that he believed the deal would be closed within a few days.

The Faultless Co. has just closed a contract with a New York firm, which will mean sales aggregating at least \$100,000 annually, and possibly may go as high as \$500,000. The factories now in operation at Akron have already reached their limit and to fill the New York contract the company must procure more room as speedily as possible.

Mr. H. B. Camp, president of the Ashland & Webster Railroad Co., is interested in the deal. Along the A. & W. tracks in Ashland is a large brick building owned by Mr. Camp, and here is a proposition he has made: The town to buy this building and give it to the Faultless Rubber company, for a plant, in return the rubber company to equip it and arrange within 60 days to employ not less than 100 men and women. Mr. Camp agrees to sell the building for \$8,000, and promises to refund \$1,000 to the citizens.

The Faultless Rubber Co. was started in Akron five years ago, with a capital of \$500 and is now rated in Bradstreet's at \$150,000.

No man should so act as to take advantage of another's folly.—Cicero.

YOUNG ARTIST

Spending Vacation In Akron.

Has Been Studying In Berlin Three Years.

Mr. Frank M. Werner arrived home from Berlin, Germany, Sunday morning. He was accompanied by his father, Mr. P. E. Werner, who met him in New York. Mr. Werner has been studying portrait painting in Berlin for three years. He studied under Max Koner until that master died. Since then he has been studying with Narten, a former pupil of Koner's. He will return to Germany in September. He will ultimately have a studio in America, but he does not know how soon. "The longer you study portrait painting, the more you want to learn about it," he said.

Mr. Werner made a thousand mile bicycle tour of Germany and the Netherlands, visiting the principal art galleries of both countries. He has also visited the chief art galleries of London and Paris. He expects to visit the Italian galleries when he returns again to continue his studies. Mr. Werner will not locate permanently in this country until he has made a reputation for himself in Germany.

BIG CASTING

Shipped Monday by Webster, Camp & Lane Co.

A casting weighing 17½ tons was shipped Monday to the Hendrie and Bothoff Mining Co., Anacosta, Col., by the Webster, Camp & Lane Co. The casting is a crank-shaft for a hoisting machine. It required 12 horses to draw the casting from the plant of the company to the railroad yards.

WERNER EMPLOYEES.

Date For Their Annual Picnic Announced.

The annual picnic of employees of the Werner Co. will be held Aug. 16, at Cedar Point. Arrangements are already being made for the outing.

Falls Personals.

(Special Correspondence.)
Cuyahoga Falls, July 14.—Mr. E. K. Pardee, an employee of the Government printing office at Washington, is spending his vacation with his father, Mr. Edward Pardee.

Rev. W. J. Wilson and family are spending a couple of weeks at Chautauqua, in consequence of which there were no church services in the M. E. church, Sunday.

FIRE

Nearly Destroyed a House In Richfield.

(Special Correspondence.)
Richfield, July 14.—Mr. Eugene Hancock's residence on East Hill caught fire Sunday morning from the chimney and came near burning to the ground, but his sons were home that morning and his neighbors gave their aid. It was soon under control, but the house was damaged considerably. Richfield held its second annual convention at the Congregational church Sunday, July 13. A very fine program was carried out and the Sunday question and Sunday school work was ably discussed by its members.

Mr. and Mrs. Nida have returned from their wedding trip, and are visiting Mrs. Nida's parents, Mr. and Mrs. Fruman Humphrey, on East Hill. Mr. Nida is superintendent of schools at Stryker, O.

BOSTON STORE.

On Tuesday afternoon we will hold a great Factory End Sale of wide Embroideries, worth 6c and 5c a yard—from 2 p.m. to 2:30 p.m., 5 yards for 10c.

BODY

Of Lord Pauncefoot Now at Southampton.

Southampton, July 14.—The cruiser, Brooklyn, with the body of the late Lord Pauncefoot aboard, arrived here today. Three torpedo destroyers met the cruiser, and escorted her to this port. Admiralty officers and members of the American embassy also met the vessel bearing the remains.

Building an Addition.

Col. Geo. T. Perkins is building an addition to his residence on Prospect st. The addition will contain several rooms.

BOSTON STORE.

On Tuesday afternoon we will hold a great Factory End Sale of wide Embroideries, worth 6c and 5c a yard—from 2 p.m. to 2:30 p.m., 5 yards for 10c.

MRS. ARTHUR PAGET.

London, July 14.—At the opening of the imperial coronation bazaar for the benefit of the Children's Hospital many prominent society women of America were in attendance and many of the exhibits were loaned by Americans. Mrs. Arthur Paget's stall was easily the most attractive, as she had \$15,000,000 worth of jewelry for sale and on exhibition.
